

Primary Master Classes 2026

We are delighted to invite Year 5 and Year 6 students from our local primary schools to join us for an exciting programme of enrichment workshops at Bohunt Farnborough. These sessions are designed to give pupils a taste of secondary school life, inspire curiosity and build confidence ahead of their transition.

Led by our specialist teachers in our great facilities, each workshop offers a hands-on, engaging experience that encourages students to try something new, develop key skills and discover potential passions. Whether solving challenging Maths problems, competing in our Mini-Olympics, creating in Design Technology or exploring the outdoors, there is something to spark every interest.

We look forward to welcoming your students and sharing the enthusiasm, expertise and opportunities that secondary school has to offer.

Maths

Friday 20th March 2026 - 4-5:30pm

We are excited to invite Year 5 and 6 students to a workshop with our specialist Maths team. This is a great opportunity to get an insight into the endless possibilities that secondary school Maths opens up and learn how Mathematics shapes the world we live in. After the workshop, students will be entered for the UKMT Junior Maths Challenge where they join schools around the country in demonstrating their mathematical reasoning, precision of thought and fluency.

PE

Tuesday 5th May - 4-5:30pm

Get ready to compete, collaborate and celebrate sport at our Bohunt Mini-Olympics! Students will take part in a range of fun, inclusive challenges designed to test teamwork, determination and resilience. This action-packed session is a brilliant way to experience secondary school PE, build confidence and enjoy the spirit of friendly competition.

Design and Technology

Wednesday 20th May 3.30-4.30

In this hands-on workshop, students will work with a variety of materials and tools to design and create a product they can proudly display at home. Guided by our specialist DT team, they will experience the full design process – from idea generation to final creation – developing creativity, problem-solving skills and practical techniques along the way.

enjoy respect achieve

Food

Thursday 21st May 3.30 -4.30

Join us in our Food Technology kitchens to bake some delicious treats to take home and share with your family. Students will learn essential kitchen skills, food preparation techniques and the importance of working safely and hygienically. A fun (and tasty!) introduction to life in a secondary school food room.

African Drumming

Thursday 9th July 3:30-4:30

Experience the energy and excitement of African Drumming in this lively, rhythm-filled workshop. Students will learn traditional rhythms, explore different percussion techniques and perform together as an ensemble. No experience needed – just enthusiasm and a willingness to make some noise!

Spanish

Tuesday 19th May 3:30-4:30

¡Hola! Come and discover the joy of learning a new language. In this interactive session, students will learn basic Spanish conversational skills, greetings and phrases that they can use straight away to impress friends and family. A fantastic introduction to languages at secondary school and the cultures of the Spanish-speaking world.
